

Endodontic Workflow in General Dental Practice

Concepts and Biological Rationale

Monday 2nd March 2015

18.30 – 20.30 hrs

(2hrs verifiable CPD) Refreshments from 18.00hrs

**Venue: The Park Royal Hotel,
Warrington, WA4 4NS**

The British Endodontic Society is pleased to announce an evening seminar aimed particularly at the younger members of the profession who are currently in General Practice, or starting out, and who have a special interest in endodontics. The seminar will be complimentary, however we do ask those who wish to attend to book in advance so that the Society has an idea of numbers. We particularly encourage non-members of the Society to attend.

The seminar will be very informal with plenty of opportunity for discussion and questions on a more open forum basis rather than a formal presentation.

At the conclusion of the seminar you should:

- understand the importance of consistent examination, diagnosis and treatment protocols
- understand the importance of efficient endodontic workflow in clinical practice
- be aware of current instruments and materials which aid efficiency including latest rotary instrumentation
- appreciate the biological rationale underlying root canal treatment and how the treatment process reflects this rationale

The Park Royal Hotel is ideally situated close to Warrington, Liverpool and Chester, being within under 10 minutes drive from both the M56 and M6 and 3 miles from Warrington Railway Station.

To book a complimentary place on the seminar please visit our website www.britishendodonticsociety.org.uk where you will be asked to provide your contact details including email and charge card details. A charge of £15 will be made on your card to secure a place, however this will be refunded back onto your card after the event providing you have either attended or notified the Society 24 hours in advance of non-attendance.

Annabel Thomas, Course Organiser, The British Endodontic Society,
Tel: 01494 581542 Email: info@britishendodonticsociety.org.uk

The Presenter for the evening will be
Sanjeev Bhanderi BDS MSc,
Specialist in Endodontics

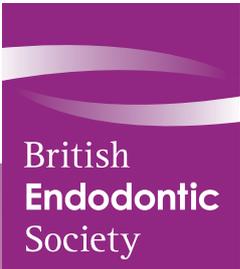

Sanjeev Bhanderi qualified from the University of London (Guys & St Thomas' hospitals) in 1993. After graduating he worked in NHS general practice in East London and then started a training post as an SHO at the Turner Dental School, University of Manchester.

In 1997, Sanjeev completed the MSc in Endodontology at the Turner Dental school in Manchester whilst working in NHS general practice in Stockport. He then worked exclusively in specialist practices in Manchester, Liverpool, and London. In 2001, Sanjeev was registered onto the GDC Specialist list for Endodontics.

He has since been committed to teaching and is a well-known lecturer on CE courses throughout the UK. Sanjeev was Course Leader for the MSc programme in Endodontology at the University of Central Lancashire until 2012, is an honorary teacher for the University of Manchester MSc course in Endodontology, and lecturer on the FGDP (RCS Eng.) Diploma in Restorative Dentistry. He has also lectured in the Middle East, Asia, and Europe.

Sanjeev is the European Society of Endodontology representative for the British Endodontic Society and member of the American Association of Endodontics. He has a particular clinical interest in endodontic microsurgery (US trained) and works by legal instruction as a medicolegal witness (certified by the University of Cardiff Law School).

In 2009, Sanjeev opened his new state-of-the-art Specialist practice, Endo61 in Cheadle, Cheshire, where he also runs live clinical demonstrations and courses for practitioners and postgraduate students.
